Web Django, Rest Framework, Bootstrap, React Js, HTML, CSS, JavaScript, MySQL, Firebase  
Others Machine Learning, Augmented reality, Android Studio

---

## Projects

### Robotics

- **Bracu Duburi**  
First Autonomous under water vehicle in Bangladesh. Bracu Duburi team is working day and night to build a community of AUV and ROV hobbyists.
- **Drone Surveillance**  
By using OpenCV and yolov3 to detect objects and deep sort to count objects in the junkyard.
- **ioBot**  
Autonomous rescue bot using computer vision. It can assist the victim on its own by sending them a health kit and a hammer, both of which can save their lives. It is also a data mining bot using pH, humidity, temperature, and moisture sensors.
- **Soccer bot**
- **Alo**  
Solar panel control by Bluetooth sensor and for control this developed a android app.
- **Ecglo**  
Bio Medical device using ECG, Emg, Gsr & Color Sensor.
- **Cansat**  
A CanSat is a simulation of a real satellite, integrated within the volume and shape of a soft drink can.

### Web & App

#### Projects

- **Allergic2Allergies**  
Designed and developed a blogging website using Django framework.
- **CgRealty**  
Developed a reality based website using HTML,CSS & JavaScript.
- **Robu web**
- **Duburi web**  
Designed and developed this website using Django framework.
- **JoyJatra**  
Designed and developed this website for a event using Django framework.
- **identifier**  
Web based Augmented reality using Ar.js. Designed & Developed this to identify product using web based Augmented reality.
- **Easy payment app using SSL commerce**
- **Easy Life BD**  
Designed & developed a multi level marketing app.

---

## Awards

### International

- **Semi Finalist, Robosub 2022**

Domestic

- Winner, IC4IR, 2021
- Top-26, BIG Grant, 2021
- 2nd at Hackathon, UAP Cse Carnival, 2020
- 2nd at Poster presentation, UAP Cse Carnival, 2020
- 1st at Poster presentation, IEEE Tourna Tech, 2019
- 5th, Tech Fest at AIUB, 2018
